

Entry-Level Electrical Engineering

SN&N has openings for Electrical Engineers to join our multidisciplinary team of engineers and scientists. The candidates will work on projects that require skills in circuit schematics and layouts, performing PCB bring-up, and R&D for medical devices. If you have the academic or equivalent work experience and are eager to learn, willing roll up your sleeves and work, we want you to join our team!

Requirements:

- Good understanding of analog & digital circuits.
- Good understanding of Altium layout tools.
- Good documentation skills.
- Ability to work independently and with a team.
- Proficient in use of EE lab tools, including spectrum analyzers, function generators, power supplies, etc.
- Soldering skills required.

Qualifications:

- The candidate has a natural curiosity for learning new skills, a positive attitude, is detail oriented, self-motivated and a creative problem solver.
- Ability to work hands-on building hardware and solving issues.
- B.S. or M.S. degree in EE or equivalent work experience.
- One year EE experience, a plus.
- Must have work permit to gain and maintain employment in the USA

Job Type: Full Time

Work Location: San Jose, CA

Compensation: DOE
